WHY NOT US

Since announcing to our subscribers that after January 1st we would increase the subscription price of The Lexington Dispatch-News to \$1.50 per year, we have had quite a large number of our old subscribers come in and pay for a year in advance. We are glad to see them do this, for really we regret the fact that circumstances force us to ask a \$1.50; but in keeping with every thing else, the cost of paper, ink, labor and all printing material has increased to the extent that we can not longer continue to put out a paper at \$1.00 per year. In fact there are many reasons why the subscription price of a weekly paper should be increased where the rates are not below the standard of war price.

The first of these reasons is that the publisher who does not increase his rates will not be able to continue his publication on the standard of efficiency and value to his community his paper has or should be giving.

There is not now, and never has been, any reason for the existence of any newspaper that is not of value to the community in which it is published. But the community cannot afford to lose any newspaper that is of value, and the people will not willingly sacrifice that which is of value to them as a whole, and as individuals for the small sum of one or two cents per week. We ask our friends to "stay with us" and we will do our best to earn it.
